H01 - Ex. 1.

Copy of the forgoing together with a copy of the letter received from the Executive Engineer, Water Supply Division is herewith submitted to the Secretary to the Government of Mysore, Law Department for favour of information and approval.

The works done in A & B Blocks were carried out under tender of 1941-42 and now the circumstances have considerably changed and a separate tender is to be called for the remaining work. It is therefore requested that the proposal to prepare a fresh estimate and to execute the same under a different tender may kindly be got approved.

Early intimation of approval to the proposal is requested.

Letter No. 1652 dated 21st November 1944 from the Executive Engineer, Water Supply Division Bangalore, to the Special Officer, City Improvement Trust Board, Bangalore.

Re:-Laying water supply main in A & B. Blocks of Wilson Garden Extension.

With reference to your No.332 dated 9-11-1944 requesting this office to complete the work in block 'B' and transfer you the cost, I have the honour to reply as follows:-

The work in block 'B' as was originally intimated was completed already. If you now require a further portion to be added on to this block, it will require a fresh estimate being got up at current rate and executed. But tenders were called for, for the entire work of blocks B & C as far back as 1941-42. It is considered an audit objection now to split up the work with different component parts and to send piecemeal estimates. It was therefore proposed by this office to close the tender at the stage at which it was completed in block 'B' and to execute all the remaining works under a different tender as soon as the grant of fund for the same was intimated.

The old tenderer may not also execute the additional work in 'Block 'B' now proposed by you at the original tendered rates since the circumstances now are quite different from those that existed during 1941-42. I therefore request you to kindly intimate if a separate estimate for that portion of the work which is now required to be executed may be got up at the rates prevailing at present and sent to you for your counter Signature and return.

The Assistant Engineer, No. 1 Water Supply SubDivision is requested to prepare such an estimate in anticipation.
